**JOURNAL OF THE INTERNATIONAL NEUROPSYCHOLOGICAL SOCIETY**

**Instructions for Contributors**

**Aims and Scope:**

The Journal of the International Neuropsychological Society welcomes original, creative, high quality research papers covering all areas of neuropsychology. The focus of articles may be basic, clinical, or a mixture of both. Contributions will broadly reflect the interests of all areas of neuropsychology, including but not limited to: development of cognitive processes, brain-behavior relations, behavioral neurology, neuropsychiatry, and cognitive neuroscience. Papers that utilize behavioral, neuroimaging, and electrophysiological measures are appropriate. Book reviews will also be published.

To assure maximum flexibility and to promote the wide distribution of research findings, the following formats are available in addition to Regular Research Articles: Brief Communications are shorter research articles; Rapid Communications are for new, preliminary work that does not yet justify a full-length article, and which are put on a fast review track; Neurobehavioral Grand Rounds are unique case studies, which are published in tandem with an introduction by an expert in the field to put the case into a more global perspective; Critical Reviews are thoughtful considerations of topics of importance to the field; Symposia may be invited that are thematically linked; Letters to the Editor respond to recent articles in the Journal of the International Neuropsychological Society; and Book Reviews.

All papers are pre-approved by the Department Editor or proposed by individual authors. Such proposals should be discussed with the Editor-in-Chief or the Department Editor before submission. Book Reviews and Letters to the Editor are reviewed by the Book Review Editor.

**Originality and Copyright**

To be considered for publication in the Journal of the International Neuropsychological Society, a manuscript cannot have been published before nor can it be submitted for publication elsewhere. Papers with multiple authors are reviewed with the assumption that all authors have approved the submitted manuscript and concur with its submission to the Journal of the International Neuropsychological Society. A Copyright Transfer Agreement, with certain specified rights reserved by the author, must be signed and returned to the Editor by the corresponding author of any article prior to its publication. This is necessary for the wide distribution of research findings, and the protection of both the author and the society under copyright law.

**Disclosure Form**

An Author Disclosure Form must be signed by the corresponding author at the time the manuscript is submitted. This form includes an attestation that the manuscript is original and has not been published before nor can it be submitted for publication elsewhere. Papers with multiple authors are reviewed with the assumption that all authors have approved the submitted manuscript and concur with its submission to the Journal of the International Neuropsychological Society. A Copyright Transfer Agreement, with certain specified rights reserved by the author, must be signed and returned to the Editor by the corresponding author of any article prior to its publication. This is necessary for the wide distribution of research findings, and the protection of both the author and the society under copyright law.

**Manuscript Submission and Review**

The Journal of the Neuropsychological Society uses online submission and peer review. Paper submissions are not accepted. Authors who are not able to submit their manuscripts online are asked to contact the editorial office at: jins@unm.edu. When addressing research questions is: http://m曼城university.com/cup/jins/and complete instructions are provided on the website. Prior to online submission, please consult http://www.ncbi.nlm.nih.gov/entrez/query.fcgi?db=mesh for more details on how to prepare your submission. When uploading figures (color or black and white), they must be uploaded to a single column of a two-column format.
